1. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest an assembly for making a substrate for a plasma display comprising the combination of a mold and a rib precursor as defined in claim 1 of the instant application. The closest prior art is disclosed by Chiu et al. (U.S. Pat. No. 6,247,986), Japanese Pub. No. 08-273537, Wojcik (U.S. Pat. No. 4,668,607), and Sakai et al. (U.S. Pat. No. 5,580,511), all of which are previously of record. None of these references teaches or suggests a rib precursor containing a first photo-setting initiator having a first absorption edge and a mold comprising a second photo-setting initiator having a second absorptive edge wavelength that is shorter than the first absorptive edge wavelength.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donald Heckenberg whose telephone number is (571) 272-1131. The
